

# Weekly Weather Data Investigation

I can pose questions and collect data by observation. **(ACMSP118)**

I can construct data displays appropriate for the data type. **(ACMSP119)**

## The Weekly Weather in My Home Town

Choose an aspect of the local weather to collect data on. Write down your question and record the daily results over the period of one week.

**My data investigation question is:**

---

---

**My data collection:**

# Weekly Weather Data Investigation

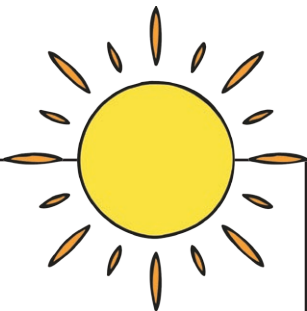

## Data Display:

Display your data in the most effective way. This could be in a dot plot, column graph, picture graph, table, pie chart etc.

Use your collected data to help you write 3 questions that another person could answer.

# Weekly Weather Data Investigation

**Task Reflection:**

What type of data collection method and data display did you use?

---

---

---

---

---

---

Why do you think that it was the most effective method for your results?

---

---

---

---

---

---

What conclusions can you make from your results?

---

---

---

---
