Night Time in the Toy Shop

In the toy shop, in the toy shop.

Late at night, late at night.
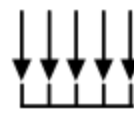

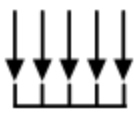

All the toys are moving, all the toys are moving.
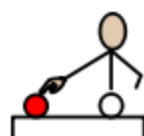

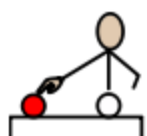

What a sight! What a sight!

Cars drive round, cars drive round

Blocks are building, blocks are building

Then they all fall down, then they all fall down.
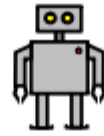

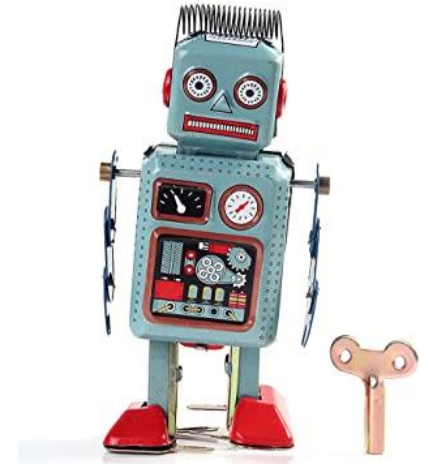

What's that sound? What's that sound?
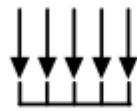

Robots walking, robots walking

Lights all flash, lights all flash

Catch the balls as they fall, catch the balls as they fall

To the ground. To the ground.
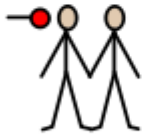

Nearly morning, nearly morning.

Time to stop. Time to stop!

Go back to their places, go back to their places,

In the shop, in the shop.
